Flower Essence + Cell Salt Homeopathic Remedy – Sugar, Dairy, Alcohol & Gluten Free

Anxiety in Heart - Melancholy - Indecision

- Although Sidida Heart is a subtle remedy, subtle does not mean weak. This is a powerful formula that can help balance the heart.
- This formula is excellent for heavy “intellectual” types, people who are too much in their head and not enough in their heart. Sidida Heart may sometimes bring emotions to the surface, but most of the time it helps one get into a good mental space; relaxed and open. In this regard, it can be thought of as a more advanced version of Sidida Stress Relief.
- Sidida Heart is the remedy of choice for practitioners and those interacting with lots of people on a daily basis. It can increase energy levels and discourage or prevent a “drained” feeling after working with many clients or customers. Although Sidida Heart may increase sensitivity and intuition, it can also help create clearer boundaries so another person’s stress does not become your own.
- Sidida Heart is also good for yoga practitioners who want more openness and flexibility in the chest.

How Siddha Homeopathics work:

- Siddha Flower essences and cell salts are captured in the medium of water using traditional homeopathic techniques. The ingredients have been shown to resolve various forms of stress.
- Western medicine and herbs treat the chemical portion of the nervous system. In Eastern traditions, electrical messaging within the body is viewed as more important. Siddha Homeopathics work at this electrical level of the nervous system.
- Electromagnetic blockages can be understood as minute interference waves that prevent smooth electrical transmission within the nervous system. The result is a basic hindrance to well-being from within multiple systems.
- When Siddha remedies are introduced into the body, the nervous system is exposed to a combination of homeopathic ingredients and cell salts. Together, they initiate resolution for the obstructed field, ease electrical transmission and reduce detrimental interference.
